

*5th ISC International Conference on
Cancer Therapeutics Molecular Targets,
Pharmacology and Clinical Applications*

**FOCUS ON
GASTROINTESTINAL TRACT ONCOLOGY**

**3-5 MARCH 2011
FLORENCE, ITALY**

CHAIRS:

Teresita Mazzei, Florence
Calogero Surrenti, Florence

CO-CHAIRS:

Andrea Galli, Florence
Enrico Mini, Florence

ORGANIZING COMMITTEE:

Paolo Bechi, Florence
Giampaolo Biti, Florence
Luigi Cataliotti, Florence
Francesco Di Costanzo, Florence
Roberto Mazzanti, Florence
Renato Moretti, Florence
Bruno Neri, Florence
Gian Luigi Taddei, Florence
Francesco Tonelli, Florence
Andrea Valeri, Florence

SCIENTIFIC COMMITTEE:

Francesco Boccardo, Genoa
Nicola Caporaso, Naples
Gian Franco Delle Fave, Rome
Scott L. Friedman, New York - U.S.A.
Andrea Galli, Florence
Lucio Luzzatto, Florence
Teresita Mazzei, Florence
Enrico Mini, Florence
Calogero Surrenti, Florence

SCIENTIFIC SECRETARIAT:

Stefania Nobili, Florence
Phone +39 (0)55 4271 306
Email: stefania.nobili@unifi.it

Mirko Tarocchi, Florence
Email: mirtaroc@tin.it

Preliminary Scientific Programme

FIRST DAY - afternoon

Keynote Lecture:

GASTROINTESTINAL TUMORS: CURRENT EPIDEMIOLOGY AND PUBLIC HEALTH

Topic 1/Session I

CANCERS OF THE OESOPHAGUS AND THE STOMACH

- *Dysplasia and early malignancy in Barrett's oesophagus, from detection to treatment*
- *Oesophageal cancer treatment: the multidisciplinary approach*
- *Adjuvant or neoadjuvant treatment of resectable gastric cancer?*
- *Progress in the medical treatment of advanced gastric cancer*

1° Satellite Symposium

SECOND DAY - morning

Keynote Lecture

GASTROINTESTINAL STEM CELLS: MOLECULAR AND CLINICAL ASPECTS

Topic 2/Session II

PANCREATIC CANCER

- Surveillance of individuals at high risk for pancreatic cancer
- Progress in the management of locally advanced and resectable pancreatic cancer
- Medical treatment of metastatic pancreatic cancer: what's new?
- Molecular markers and their potential implications in the treatment of pancreatic cancer

Topic 3/Session III

CANCER OF THE LIVER AND BILIARY TRAC

- Novel concepts in molecular biology of hepatocellular carcinoma
- Treatment algorithm for hepatocellular carcinoma
- Progress in the medical treatment of hepatocellular carcinoma: new targets and new drugs
- Cholangiocarcinoma: still an orphan disease

2° Satellite Symposium (lunch)

SECOND DAY - afternoon

Keynote Lecture

TOWARD PERSONALIZED THERAPIES IN GASTROINTESTINAL CANCER

Topic 4/Session IV

CANCERS OF THE COLON AND RECTUM

- Risk factors and hereditary syndromes (Genetista)
- Adjuvant treatment of stage II and III colon cancer
- Neoadjuvant treatment for locally advanced rectal cancer

Topic 4/Session V

CANCERS OF THE COLON AND RECTUM

- Liver metastases of colorectal cancer: the multidisciplinary approach
- Medical treatment of metastatic colorectal cancer: state of the art
- New targets and drugs in the treatment of metastatic colorectal cancer

3° Satellite Symposium

THIRD DAY - morning

Meet the Expert Session

.....

Topic 5/Session VI

GASTROINTESTINAL STROMAL TUMORS

- Updates in GIST molecular pathology and implications for clinical practice
- Adjuvant treatment of GISTs
- Updates and perspectives in the medical treatment of metastatic GISTs

Topic 6/Session VII

GASTROENTEROPANCREATIC NEUROENDOCRINE TUMORS

-
-
-
